

smartfilmplus

Datasheet - SmartTransformer 45/100VAC

Special Smart Transformer - ready to use for Smartglass and Smartfilm. Provided with 45V/AC Power Output to use in 230V/AC Power Networks! Support round about 15sqm Smartglass or Smartfilm.

Electrical rated parameter

Power: 100VA
Input: 230V/AC - 50/60Hz
Output: 45V/AC - 2,2A

Connection / Wiring

Prim/Sec: H05VVH2-F 2x0,75qmm
Size: ca 15sqm
Wire: 30cm , black

Construction details

- Vakuum encapsulated
- Black PET Cover
- Short circuit proof by temperature switch
- Fine wire fuse (MT 1,25A)
- Ready to use in wetroom-areas
- Insulation Material Class „E“
- Protection Class II ready / IP56
- Wight: ca 2,2kg
- Type: EN 61558
- W/B/H - 150/77/80 mm

ATTENTION:

Please be sure to use just certified material to install the transformer on power!
